Words from Amy

We had another great summer at both Bear Creek and Pennyroyal. It's hard to believe we are gearing up for another summer already! The resident camp team is hard at work on new programming, the brochure and recruitment. We have several year round program opportunities that are available for campers of all ages that are new this year, including our "Canoe Be a Leader" program! For more information feel free to e-mail me at arehs@kyanags.org. I want to say a special thanks to our camp directors and staff for making this summer so great! Our campers thank you for the difference you make!

Camp Pennyroyal

2009 was a very exciting summer for the Pennyroyal crew, enjoying a camp that filled to 99% of the original proposed capacity! We had an exciting staff who came from all over the US, including Virginia, Utah, Ohio, and Florida and from 5 different countries including: Australia, New Zealand, England and Sweden!

2010 is going to be another exciting year! We are planning on using a new stable and having a better horse program than camp has ever seen before. We are also including 2 short sessions this summer, one being the traditional sampler session like seen in years past, and then a second shorter second focusing on very specific interests including: Climbing, Science, Photography, and Caving. Taking the feedback from both camper and parent surveys kids are asking for more off-site experiences and we are working on the way to deliver it!

Bear Creek Aquatic Camp

2009 was an amazing summer for campers and staff. We had staff from all over the US and world this summer, even some campers traveled from surrounding states to enjoy all the Bear Creek Aquatic Camp has to offer!

With the beginning of October, we are already starting up for the 2010 season; we have lots of new ideas for this up coming summer. We are trying our longer 12 day session again, with two short six day session in the middle. We have started a camper panel, getting input from the girls, for new program ideas.

We are looking forward to amazing 2010 season!
